

Eagle Playoffs

Because we have 3 divisions this season a little creativity must be done for the playoffs. The top 2 players will automatically make the playoffs in each division. That is 6 players. We will then have 2 “Wild Card” positions open. “Wild Card positions will be determined by the Highest Winning percentage of the games played. This is the only fair way to pick because each of the divisions has a different amount of players in it.

The Bracket:

A total of 8 teams will make the playoffs. We will have an 8 player single elimination bracket from there. Home team will be the highest winning percentage team. Playoffs will take 3 weeks.

We will seed the top 4 teams based on winning percentage. The top 4 seeds will be the home teams for the first round. The top player (top seed) will play the 2nd wild card player. The second seed will play the 1st wild card player. The 3rd seed will play the lowest winning percentage 2nd place division winner. The 4th seed will play the 5th place seed. Home teams will be determined by winning percentage from the season, not the playoffs. 2nd round home team will be determined by the highest seeded player. Home team for the finals will be the highest seeded player.
